Department of Chemical and Biological Engineering

Policy for the purchase for use of Non CSA approved Equipment in CHBE

Since all electrical and electronic goods and components ordered must conform to the standards of the British Columbia Electrical Safety Branch or have been approved by the Canadian Standards Association (CSA), Intertek Testing Services NA Ltd., the Underwriters Laboratories of Canada (ULC), and cUL - Underwriters Laboratories Inc.

The Safety committee must be notified by the purchaser of the intent to purchase nonCSA approved equipment prior to ordering, along with the plans the end user is taking to insure certification.
